## WHAT IS YES-YOUTH ENRICHMENT SERVICES

YES operates the largest urban based program of skiing, snowboarding, and outdoor education in the country. Founded by Richard Williams in 1968, YES has taken over 100,000 youngsters to the slopes. YES has a simple mission: to take young people off the city streets for a while, challenge them with the rigors of a new sport, and help them to "Believe and Achieve".

"We want to introduce kids to things they've never seen before", said Williams, "kids have to feel they can be part of that kind of America." Williams, who grew up in Harlem, got his first chance to ski in the 1950's. "Kids need an incentive in their lives to accomplish things and feel good about themselves. Making it down a mountain on skis makes one feel really good. Mastering skiing makes them want to do other things in life."

With the help of 150 volunteers and many New England resorts, YES has grown from a small not-for-profit organization to a powerful force of change in our communities and in our children's lives. According to a 1997 study by the Harvard Business School, YES is highly cost effective and has a significant impact on the lives of urban youth.

By participating in the Massachusetts Snow Challenge, you will help YES a great deal. Thank you for your support.
